EDUCATION

Northeastern University, Boston, MA

May 2026

Master of Science in Experience Design / GPA: 3.9/4.0

Relevant Coursework: Experience Design Studio, Design Systems, Notational Systems, Disability Design, Prototyping for Experience Design, Research Methods for Design, Designing AI for Education

Bachelor of Science in Computer Science & Design / GPA: 3.8/4.0

May 2025

Honors: Magna Cum Laude

Relevant Coursework: Interaction Design Principles, User Experience Design, Brand and Identity Design, Fundamentals of Software Engineering, Human-Computer Interaction, Information Design, Database Design

PRODUCT EXPERIENCE

Dow Jones, New York, NY

June 2025 – August 2025

Product Intern

- Designed and shipped a major B2B product suite feature to production by framing user needs, gathering product requirements, prototyping in Figma, and communicating design rationale to engineers over Jira
- Led six interns to propose an AI-powered product to encourage Gen Z to invest by iterating upon current offerings, conducting user research, creating quality mockups, and presenting to senior leadership
- Coordinated three 2025 roadmap projects with external user feedback in a cross-functional triad team structure

Boston Globe Media Partners, Boston, MA

January 2024 – August 2024

Product Management Co-op

- Coordinated five major projects to completion in an agile/scrum environment using Jira with stakeholder feedback and engineering/design team support, including priority projects on the 2024 roadmap
 - Implemented several design-system-aligned features using WordPress CMS, HTML/CSS, and JSON
 - Queried monthly KPI data from WordPress, MailChimp, and PageSpeed Insights to inform future product decisions
-

BRAND DESIGN EXPERIENCE

No Pool Productions, New York, NY

July 2025 – Present

Freelance Design Consultant

- Developed brand system and identity using Adobe Suite for Broadway-focused production company startup
- Designed website in Figma, conducted competitive analyses, and shipped to production using TypeScript and Next.js

Theatrely, New York, NY

May 2026 – June 2026

Freelance Designer

- Created 76 Instagram-sized graphics for Theatrely's 2026 Tony Award coverage, selecting categories projected to be top-performing based on social insights and Theatrely data
 - Built a Figma design system aligning Theatrely branding with Tony Award imagery in a dynamic, reusable layout
-

PROJECTS

AI Whiteboard, Boston, MA

March 2026 – April 2026

AI-Assisted Educational Design Project

- Designed and shipped a digital AI whiteboard tool where a constructivist AI (Claude API) directly manipulates the canvas based on student work, via prompt engineering and a JSON-based token system
- Based on insight from two group validation tests, created Figma prototype and product requirements; fed both to Claude Code and used Vite and tldraw to facilitate the creation of a single-page application whiteboard tool

Fantasy Sportsball, Boston, MA

November 2025 – December 2025

Experience Design Project

- Designed a card game to redefine the sports-watching experience for non-enthusiasts that combines bingo and fantasy football to foster a greater sense of community through engagement with sports
- Translated five user interviews into an experience map and card content; tested enjoyment and game flow through two user testing sessions; and designed four card iterations using the Adobe Suite

Around Town, Boston, MA

September 2025 – December 2025

Interaction Design Project

- Created branding, component library, and interactive prototype for a mobile app promoting arts accessibility in Boston
- Championed accessibility-by-design with content accessibility tagging and a WCAG-compliant color system
