EXPERIENCE

Self-Employed, New York, NY **August 2026 – Present**

Full-Stack Website Designer

- Designing and building three client sites, including one for an Off-Broadway show, in Webflow and Payload CMS
- Benchmarked comparable sites, prototyped responsive layouts in Figma, and modeled CMS content per build

Theatrely, New York, NY **May 2026 – Present**

Freelance Designer

- Redesigned the social content template system to fix brand inconsistencies affecting advertiser sponsorships; wrote and pitched the PRD
- Designed social graphics for 2026 Tony Awards and Fall Preview coverage in Theatrely's visual language

No Pool Productions, New York, NY **May 2026 – Present**

Product Generalist

- Investigated third-party ticketing systems for an upcoming Off-Broadway production, assessing fit and feasibility
- Designed and built company website in Figma and Payload CMS, enabling no-code editing by marketing staff

Dow Jones, New York, NY **June 2025 – August 2025**

Product Intern

- Drove redesign of NewsPlus's legacy company information module, the product's first AI feature, by framing user needs, writing requirements, prototyping in Figma, and handing off to engineering in Jira
- Led six interns through market research and competitive analysis to propose an AI-powered fintech product encouraging Gen-Z investing, building mockups and presenting product strategy and vision to senior leadership
- Coordinated three 2025 roadmap projects in a cross-functional triad structure, incorporating external user feedback to prioritize features against business goals and technical feasibility, documenting efforts in Confluence

Boston Globe Media Partners, Boston, MA **January 2024 – August 2024**

Product Manager

- Coordinated five major projects to completion in an agile/scrum environment using Jira, aligning stakeholder feedback with engineering and design teams on priority items for the 2024 roadmap
- Shipped design-system-aligned features in WordPress CMS and HTML/CSS, keeping product UI consistent
- Analyzed KPI data across Google Analytics, MailChimp, and WordPress; identified sports as a top traffic driver and redesigned the live-score banner after auditing broadcast scorebugs

EDUCATION

Northeastern University, Boston, MA **September 2025 – May 2026**

Master of Science in Experience Design / GPA: 3.9/4.0
